# National Scrip Collectors Association

The **National Scrip Collectors Association** was officially organized on October 21, 1972 in Fayetteville WV. The objectives and purposes of the organization are to promote the collection of coal company scrip and related tokens, to cultivate good relations between collectors of scrip tokens, and to encourage the study and research of the history of coal mining companies as it relates to the usage of scrip tokens.

In the late 1970's the scope of the **NCSA** was broadened to include tokens from other industries; including lumber, phosphate, hard rock, limestone, copper, gold & silver, brick & clay, cotton & textile, paper, iron & steel, agricultural, and others.

The first issue of *Scrip Talk* was published in 1965, and it continues today as the official newsletter for members of the **NSCA**. It exists not only as a source of information for its members, but as a forum where they can share items of interest. Please feel free to submit or suggest articles for future publication.

## **◆ Edkins Updates ◆**

Someday, sometime, the club will be updating the Edkins Guides to reflect changes in the token market since the last editions were published. Over the years, members have sent information on corrections and new finds that were not listed in the books, to the various members that have volunteered as New Finds Editors. If you have sent such information to us in the past, including foils, descriptions, and photos, we will be asking you in the future to forward that information to us again. This is part of the double-checking process that ensures the next editions of the Edkins Guides will be as accurate as possible.

## **◆ Membership Renewal ◆**

The mailing label on the front of each issue of Scrip Talk you receive will have a date under your name. This is the date your membership expires. Please review this regularly. You can use the coupon on page two when sending in your dues.

## **◆ Oops! ◆**

In one of those "How did this happen?!?" events, Don Clifford's fine story on Meadow Creek Coal in the last issue was run with the word 'script' used every place that 'scrip' was called for. We apologize to Don for the error and hope he will continue to send in his well-researched articles for future publication. Other members are encouraged to submit their own scrip related articles - we'll try extra-hard to get 'em in there correctly!

Thank you for bidding. Hope you find something here that you need.

## SAND IN MY SHOES - COAL IN MY PAST

Steve Ratliff

NSCA #206

Coal scrip is my tie to my origins in the coal fields of Southwest Virginia. I was born in Richlands, Virginia but due to the depressed conditions of those post-war years, my parents moved from Grundy, Virginia to Florida to find a better life. The only contact I had with coal after that was to wipe it from the bottoms of the white enameled steel chairs on my Grandfather's front porch during our annual pilgrimage back to Grundy each summer. I looked forward to these visits, not only to see my Grandparents, but to watch the steam locomotives of Northfolk and Western push the strings of coal cars up the steep grades of Buchanan county. My brother and I would sit on my Grandfather's porch and count the coal cars, hoping to find a train that beat the previous day's record length. These visits ended when my Grandfather died and my Grandmother moved to Florida with us.

On a visit to my Parents and Grandmother in 1972 my Grandmother gave me a \$1.00 piece of scrip from Banner Raven Coal Corporation and explained to me that my Grandfather John had been working for Banner Raven in 1921 when my Father was born in Drill. Being a U.S. coin collector of many years, I took an immediate interest and tried to find out more about scrip with little success at first. I ran an ad in the Virginia Mountaineer newspaper and got several pieces. In the mean time I found Caldwell's book in the ANA library and I ordered it and shortly thereafter became a NSCA member.

I get great satisfaction from my collecting of coal scrip. It ties me back to my forebearers who were among the first to settle the rugged coal rich land of Buchanan County Virginia and Eastern Kentucky in the 1790's. It fills a need in me to remember my origins and provides a way for me to pass this history on to my son and daughter.

I now have sand in my shoes and never want to return to the beautiful mountains, but I never want to forget them -- and I remember each time I pick up a piece of scrip.

## Metal Trade-Checks Check Trade from Going Elsewhere

**T**H E wise merchant who sells \$5.50 worth of his trade-checks for \$5.00 does this for himself — secures \$5.50 in easy, non-competitive sales; gets away from all credit risks, bookkeeping, and lost motion . . . thus making a cash transaction of each purchase — surely well worth the 50 cents he gives as a premium to put this system in effect.

And then, employers of labor in mines, lumber-camps, plantations, shipyards and railroad projects, by paying their workers in trade-checks, create their own medium of exchange, the expenditure of which is confined to their own stores and commissaries.

The shopkeeper, the storekeeper, proprietors of lunchrooms, fountain service, ice-cream parlors and billiard and bowling rooms, and milk dealers, all find trade-checks very handy for many purposes, some of which are pictured here; and, like the larger merchants, profit by their use in increased and easier sales, simplified systems, and the ready and convenient means of exchange afforded by the adoption of raised letter metal trade-checks.

When two lettering dies are required for one size check there will be an extra charge for one die according to size and lettering.

ALL ROUND, OCTAGON, SCALLOPED, SQUARE, HEXAGON AND CLOVER LEAF DESIGNS	1c Size	5c Size	10c Size	25c Size	50c Size	\$1.00 Size	\$2.50 Size	\$5.00 Size	\$10.00 Size
	\$1.00	\$1.00	\$1.00	\$1.25	\$1.50	\$1.75	\$2.00	\$2.50	\$3.00
OVAL STYLES	1.25	1.50	1.75	2.25	3.00	3.75	4.50	5.00	

COMBINATION SERIES, Styles D, E, F, G, H, J, R, S, T, U, Z, and 5c, 10c and 25c Slot Checks, \$1.00.

This extra cost permits of about the same amount of lettering as shown in illustrations.

Special design-dies: trade marks, autographs, monograms, and the like are extra. Prices for such dies will necessarily vary according to amount of engraving necessary.

This check is pictured with the stock lettering — Good for 25¢ in merchandise.

The same check showing the reverse side, raised from a special lettering-die — name, address, etc.

**Stimulate Business in Taverns, Bars,**  
**Tap Rooms, Night Clubs, etc.**

Points to consider when ordering.  
State quantity desired and specify material; aluminum, brass or nickel silver.

Order by number — your reference to code letters and number printed under each illustration will enable us to identify the size and design.

Type or hand print the copy as plainly as possible. This will avoid errors in spelling; names and addresses especially.

Orders for less than one hundred checks of any one size or denomination: When less than one hundred checks are ordered, they will be charged the minimum price, which is the same as one hundred.

We do not make raised letter checks which resemble coins for any stated monetary amount unless the wording, *in trade*, *in merchandise* or a trade value such as *cigars*, *lunch*, *bread* or similar value, appears on the *size* side with the denomination.
